THE GOLDEN RULE

Every statement, every stockist — by the 3rd

No exceptions: secondary data drives the month's reviews, planning and incentives

Upload all stockist statements on or before the 3rd of every month — without fail.

Managers: review your team's upload status in the first week and chase any pending stockist.

Late = missing: statements uploaded after the 3rd miss that month's secondary reports.

Protects incentives: on-time data means achievement is credited in full.

Get it right the first time

Upload only system generated soft copies ***(which are received from stockists through email, WhatsApp, or any other digital sharing platform)***

DO

- **Upload all statements on or before the 3rd of every month — without fail.**
- Select the right stockist name and upload that same stockist's statement.
- Take a clear, bright, flat photo of the complete statement.
- Stockist name not available? Inform the Commex team to get it updated.

DON'T

- In case a soft copy of the stock statement is not available, ensure No blurred, unclear or blank images.
- No crumpled statement photos — and don't fold the statement while taking the photo.
- No dark-coloured or dark images.
- No photos of a computer screen.
- Don't upload one stockist's statement under another stockist's name.

LET'S GO LIVE

Accurate secondary.
Sharper field action.
Bigger incentives.

- **Upload by the 3rd**
- **Clear, flat photos**
- **Right stockist**
- **Missing name? Tell Commex**
